CRYSTAL-CLEAR, CHEMICALLY BALANCED WATER

with the touch of a finger.

It's easy to pair an IntelliCenter Control System with sanitizing and water chemistry control systems from Pentair. The result is more time enjoying your pool or spa and less time monitoring and maintaining your water chemistry. Let the equipment do the work for you, precisely!

INTELLICHEM® WATER CHEMISTRY CONTROLLER

Perfectly balanced water with hands-free, automated ease

For the ultimate in pool chemical management, pair the IntelliChlor Salt Chlorine Generator with an IntelliChem Chemical Controller. When combined, these two products deliver the precise amount of chemicals to keep pool water clean, clear, safer and in perfect balance...automatically.

- Automatically achieves precise water balance.
- Prevents excess chemical addition, assuring safer water.
- Minimizes chemical costs.
- Flow sensor ensures chemicals won't feed without system flow.

INTELLICHLOR® SALT CHLORINE GENERATOR

Perfect water without handling chlorine

The IntelliChlor Salt Chlorine Generator uses common table salt to produce all the chlorine your pool needs, right in your pool—safely, effectively and automatically.

- Same sanitation performance as manual chlorine addition without the drawbacks.
- No need to buy, transport and store expensive chlorine compounds.
- No more odor, stinging eyes and irritated skin.

PRECISE, EFFORTLESS AUTOMATIC VALVE SETTING

Every pool/spa combination (pool with attached spa) IntelliCenter System comes equipped with two IntelliValve® Valve Actuators. IntelliValve Actuators offer the best flow control technology available for your backyard paradise. You can set flow for slides, water features and spillways.

Unlike competing valve actuators, setting IntelliValve Actuators doesn't require trial-and-error disassembly procedures. They're easy to set from the intuitive, push-button interface on the actuator body.

Precise accessory flow control has never been so simple!

Setting the sight and sound of your spa spillway is push-button easy, thanks to the IntelliValve Valve Actuator.
